

Premium Strength and Quality

MAKE IT POSSIBLE

...to seriously improve
the finish of your
packaging

180C is our premium quality coated kraftliner.

At 160gsm it is strong; and based on 100% virgin fibre, it also offers the best quality post print capability on the market with high brightness and high smoothness to ensure your product stands out.

Key Features

- High tensile stiffness for less washboarding
- Clay coated for excellent printing results and colour reproduction
- Bleached fibres – for print performance and surface smoothness
- Unbleached fibres on back side – for strength
- High consistency of materials to ensure predictability and reliability
- Developed and optimised for high quality post-print flexo. But can also be used for flexo process, pre-print flexo and digital printing
- Used for retail-ready packaging, food, beverages and household appliances

180C Board Grades

- B180C200T • B180C150V • B180C150V 150SC
- M180C200T • M180C150V • M180C150V 150SC

Technical Specification

MAKE IT POSSIBLE

	150C	160C	180C
Liner Type	Waste Based	Waste Based	Kraftliner
Grammage	140 g/m ²	160 g/m ²	160 g/m ²
Caliper	165 Microns	175 Microns	205 Microns
Bursting strength	300 kPa	330 kPa	900 kPa
SCT-CD	2.5 kN/m	2.7 kN/m	4.0 kN/m
Roughness (PPS)	2.8 Microns	1.7 Microns	1.6 Microns
Brightness	83%	81%	81%
Cobb 60 seconds	30 g/m ²	30 g/m ²	34 g/m ²
Moisture content	7.5%	7%	7%

Test Climate: 50% RH 23C
